

*"We could never have loved the earth so well if we had had no childhood in it."
- George Eliot*

Weekday Afternoons 2:30pm - 4pm
Extended Session to 5:30pm Available

82-96 116th Street
Kew Gardens, Queens

www.kewkids.org

Kew Kids welcomes homeschool children, remote or blended learning students to explore Forest Park with us. Together we seek to develop an understanding of the unique ecology of our landscape and cyclical lessons of the seasons while also deepening our connection to nature, ourselves and each other. We engage in multidisciplinary, whole-child approach to learning in the outdoors.

- **Total Nature Immersion** – 100% outdoors in all weather and all seasons resulting in intimate, deep connection to the natural world
- **Place-Based Education** – Total immersion in local landscape, heritage and culture
- **Unstructured Nature Play** – Children are given space to create their own experience
- **Low Teacher to Student Ratio:** No more than 4 students per teacher

Parents report their child becomes more confident, creative, resilient and connected to nature through participation in our programs. This complements our 2020 school plan by offering a safe and direct pathway to cultivating and strengthening divergent thinking, social and emotional skills, cognitive functions, empathy for the natural world and physical competency.
